

2017 After School Care Programs.

Bricks 4 Kidz® Educational Play Programs provide an extraordinary atmosphere for students to build unique creations, play games and have loads of fun using LEGO® Bricks. Our programs are built around our proprietary model plans, designed by engineers and architects, with exciting themes.

At Bricks 4 Kidz®, we believe that kids learn best through activities that engage their curiosity and creativity. Our programs provide a relaxed learning environment where initiative is invited and self-expression is celebrated. Model building provides opportunities for problem-solving and helps children develop an appreciation for how things work. All this takes place whilst kids are having fun and socializing in non-competitive atmospheres.

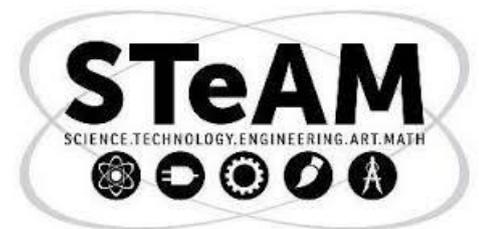

Bricks 4 Kidz® After School Workshops for incorporation in OOSH organisations activities. Children work and play in small groups with designated LEGO® Technic pieces such as gears, axles and electric motors. With over 2000 proprietary model plans and a wide assortment of themes, we will work with you to develop a program suitable to your children's needs.

After School Care Workshop Overview.

Student Profile

Our workshops are designed for Primary School students in Kindergarten through to Grade 6. Bricks 4 Kidz® models include a green circle Beginner version and a blue square version for the more Advanced Student as well as extension activities for the Most Advanced model builders.

We actively monitor each student's work to make the activities both fun and challenging for all levels.

Each workshop is designed to include a balance of Fun with Learning. We integrate core STEAM content into all of Bricks 4 Kidz® programs.

Every Bricks 4 Kidz® workshop incorporates our philosophy of ' We Learn! We Build! We Play!.

❖ We Learn

Our trained Bricks 4 Kidz® instructors lead a discussion related to that day's model, using materials designed by educators to teach concepts across a variety of subject areas. Kids will learn about everything from gears, torque and friction, to geography, space exploration, weather and MORE!

❖ **We Build**

Students build the model of the day with simple step by step instructions. Working with a partner, kids experience the hands-on fun of model building, from concept to completion. All of our models are designed by Bricks 4 Kidz® model designers, so you won't find them on the shelves of your local toy store.

❖ **We Play**

Students explore their own creativity through free play time at the end of the program. At the end of the session, students receive a handout which they can provide to their parents that provides key outcomes from the workshop.

Our Instructors

Bricks 4 Kidz® instructors are individuals who have a great interest and ability in teaching our programs to students in an exciting way. Each instructor is trained in teaching specific lessons involving the themes used in the programs and many are University or College students studying teaching.

All Bricks 4 Kidz® Staff over the age of 18 undergo a full Police background check and maintain valid NSW Working with Children Checks. We are happy to provide these details on request.

Our staff are trained in safety procedures and must adhere to the Bricks 4 Kidz® Child Safe Child Friendly Policy (found on our website).

We will provide an instructor for each workshop and may provide additional Junior Instructor where student numbers require it. Pricing will vary depending on the staffing support provided by the After School Care Provider.

Our Equipment

Bricks 4 Kidz® will provide our proprietary projects kits and model plans for the workshop programs proposed. (Note: Children do not take the models or LEGO® home). Children may work in pairs on the project models (LEGO® Technic build) and in small groups on other activities. We will require tables set up and configured for our workstations to cater for groups of 6 children per table.

Our Program Options

Bricks 4 Kidz® has a library of Standard Curriculums for After School programs. The sample below represents some of the most popular options to start with, but we are open to exploring other options to best suit your program needs and objectives.

All our After School Programs are offered as a 1 hour workshop and these are held once a week for the length of the NSW School Term. Below is a brief overview of the agenda of activities we follow:

One Hour Program	
10 min	Welcome, Introduction, and short lesson
30 min	Model Build 1 and worksheet
5 min	Clean up
15 Min	Directed Free play activity

Themes

Bricks 4 Kidz® offers a range of themes. Below is a small sample of what may be most suitable based on our experience with other local After School Care Providers, but we are also able to adapt program themes to your requirements.

Air, Land and Sea

Step aboard to build some exciting ways to get from here to there. Take to the sky in our helicopter model, race across the beach in an ingenious land sail, or zoom through the water on a jet ski. Students learn what makes each machine unique and how it moves, exploring concepts such as buoyancy, propulsion, lift and g-forces! Whether you're a high-speed thrill-seeker or just curious about how things work, this unit offers something for everyone.

Amazing Animals

It's a zoo in here! This is a unit sure to delight students who love animals. We'll build models of a spider, kangaroo, monkey, and more. Each week we'll discuss fascinating facts about the animals we build, from the chameleon that changes colours to the seal model that waddles across the table. Students will love these moving models that celebrate the wonders of the animal kingdom!

Gadgets and Gizmos

Students love our interactive Bricks 4 Kidz® models. This unit is all about the fun of doing something with what you've built. From a spinning top to a spin art model, kids will love playing with their creations! But don't worry, we sneak in lots of learning, too – understanding probability in the “3-in-a-row” game model and learning about friction and symmetry with the spinning top lesson.

Mission to Space

Space, often called “the last frontier”, has inspired scientists, star-gazers and adventurers for generations. Get inspired to go on your own adventure and join us on a Mission 2 Space! Discover some incredible structures at Kennedy Space Centre's Launch Complex 39, travel the surface of the moon on a lunar rover, and explore Mars on board the “Curiosity”. Our tour would not be complete without a visit to the International Space Station. We'll provide the bricks, all you need to bring for this adventure is your imagination!

Pricing and Payment

Pricing

**Bricks 4 Kidz® Standard Pricing for a 1 hour After School Workshop is \$8.00 per student.
There will be 8 workshops per NSW School Term.**

Payment Terms

Our payment terms are simple, we require payment in full within 7 days after the invoice is raised for each workshop. If you decide to cancel, we require two weeks notice. If cancel with less than two weeks notice, Bricks 4 Kidz® requires payment in full of the agreed minimum level of \$80.00

Bricks 4 Kidz® is not responsible for collection of the fees directly from attendees that is the responsibility of the After School Care Provider.

Bricks 4 Kidz® will send a Tax Invoice to the After School Care Provider after each Workshop. The amount will be for the higher of either the Minimum Charge of \$80 or the Actual Number of Attendees at \$8.00 per student. All prices quoted and invoiced are inclusive of GST.

Assumptions

All programs are run at the After School Care Provider's premises. The Minimum enrolment is 10 children and the Maximum Enrolment is 60 children to any one program. We assume that the After School Care provider will provide us with sufficient notice on enrolment levels to adequately prepare and staff for each session. For safety reasons, Bricks 4 Kidz® Miranda cannot accept attendees in our programs who are not currently enrolled in primary school or who are under the age of 5.

We will run the program as part of the After School Care Provider's activities. This proposal assumes the care provider's staff will assist in supervision of children. It also assumes the care provider will manage the registration/enrolment process for each attendee and pass that information to us. The program will be conducted as an after school session for 8 weeks, between the hours of 3 pm and 5 pm on the chosen week day during the NSW School Term.
