

INFORMATION FOR PARENTS

We are delighted to assist all families with creating wonderful experiences for their children during this period of uncertainty and isolation at home. These are the things you will need to know and help us with to make sure every child is ready to have FUN!

- Our eWorkshops are suitable for children between 5-7 years old
- Children attending the eWorkshop will need to have their own LEGO® ideally with a baseplate to participate in the activities and challenges. You child should bring as much LEGO® as possible!
- Your child will need a device (either computer or tablet), a medium to strong Internet Connection, and the free Zoom app downloaded to their device. Instructions for getting started with Zoom can be found [HERE](#).
- It is a good idea to think in advance about where your child will be building, since the background will be visible in the video. You may want to make sure nothing is displayed in the background that you would prefer to keep private!
- Parents and siblings are welcome to join in and build!

TWO DAYS BEFORE THE eWORKSHOP

We'll send an email with the dedicated link to the Zoom Building Room to you. Please do not share this link with any other parent or child as this will disrupt the delivery of the eWorkshop.

Make sure you have the free Zoom app downloaded to your device.

WHEN THE eWORKSHOP STARTS

Click the link sent by email to join us in the Zoom Building Room at the start time of the eWorkshop!

When you log into the Zoom Building Room, we recommend that you log in with only the child's first name – last names are not necessary.

DURING THE eWORKSHOP

Our BRICKS 4 KIDZ Instructors will run a FUN eWorkshop!

- The kids will work through a series of creative activities and share their builds at each stage

- Our Instructor will lead all activities with the children utilising their own LEGO® pieces
- We ask that the parents remain in close proximity, in case any of the children get distracted or need help with their LEGO®! It is essential that the children don't put any LEGO® pieces in their mouth.

The eWorkshop will run for 60 minutes.

AFTER THE eWORKSHOP

We will record the video of the eWorkshop. We will *never* use the video for any marketing, promotional or public purposes but we may use parts of it for training purposes internally with our team. If you have any feedback on the eWorkshop, please reach out to us!

If you have any feedback for how we can make these eWorkshops even better, we'd love to hear it.
